Profile

Motivated third-year computer engineering student with a strong interest in designing and developing innovative, high-performance software systems. Curious, proactive, and adaptable, I have gained experience across full-stack development, IoT solutions, and intelligent systems while building robust and scalable architectures. I am seeking a final-year internship to further develop my expertise and contribute to impactful, mission-driven engineering projects.

Education

Computer Engineering Cycle	2023 – Present
Higher Institute of Applied Sciences and Technology of Sousse (ISSAT Sousse)	
Bachelor's Degree in Computer Systems Engineering	2020 – 2023
Higher Institute of Computer Science of Mahdia (ISIMA)	
Baccalaureate	2020
Agareb High School	

Professional Experience

Summer Internship — Backend Development	July – Sept 2025
HNC&D — Tunis (Remote)	
- Designed and developed the invoicing module of a web platform, including RESTful API creation and implementation of complex business logic. - Collaborated within an Agile workflow using Jira and Microsoft Teams. Technologies: Spring Boot, React.js, MongoDB	
Year-End Project — Exam Management Platform	April 2025
ISSAT Sousse	
- Developed an automated exam-supervision management system featuring intelligent schedule generation powered by a greedy optimization algorithm. Technologies: React, Node.js, Express.js, MongoDB, Greedy Algorithm	
Summer Internship — AI WordPress Plugin	June – August 2024
VISS Tunisia — Sfax	
- Designed and implemented an AI-powered WordPress plugin enabling SEO-optimized content generation and interactive form creation. Technologies: PHP, Python, JavaScript, AI APIs, MySQL	
Final-Year Internship — IoT Project	February – June 2023
QuetraTech — Mahdia	
- Developed an IoT-based assistance system for individuals with reduced mobility, integrating voice recognition, obstacle detection, and a real-time mobile interface. Technologies: Flutter, Firebase, Python, Raspberry Pi, Vosk, PyAudio	

Technical Skills

- Programming Languages:** JavaScript, Java, Python, PHP, Dart, C
- Frameworks & Technologies:** React.js, Node.js, Express.js, Spring Boot, Django, Symfony, Bootstrap
- Databases:** MongoDB, MySQL, Firebase, Oracle
- AI & Computer Vision:** MediaPipe, OpenCV, Vosk, PyAudio, PyCaw, PyTorch
- DevOps & Tools:** Docker, Jenkins, Git, GitHub
- Methodologies & Collaboration:** Agile/Scrum, Jira, UML, Microsoft Teams

Academic & Web Projects

Full E-commerce Platform — MERN Stack	2025
Designed and implemented a complete e-commerce platform with product management and an interactive shopping cart system.	
Technologies: MongoDB, Express.js, React, Node.js	
Gesture-Based Volume Control — Computer Vision	2025
Built a real-time PC volume controller using hand-gesture recognition and camera-based detection.	
Technologies: Python, MediaPipe, OpenCV, PyCaw	
Appointment Booking Website — Technical Visits	2024
Developed an appointment scheduling platform featuring an interactive real-time calendar.	
Technologies: MongoDB, Express.js, Node.js	

Certifications

MERN Stack Certificate — Orange Digital Center	March 2025
Entrepreneurship Certificate — BADER TECH, Mahdia Incubator	March 2023
Web Development Certificate — LinkedIn Learning	Oct 2022

Associative Life

Active Member — ARSII ISSATSO	2024 – 2025
Organization Manager — ATAST Club Fsegma	2022 – 2023
Active Member — Microsoft Club ISIMA	2021 – 2022

Languages

- Arabic:** Native language
- French:** Fluent
- English:** Fluent

Personal Skills

- Teamwork & cooperation**
- Curiosity, ambition, dynamism**
- Passion for technical challenges**
- Autonomy and responsibility**
